The French National Radiesthesist Syndicate was founded and acknowledged by the Labour Ministry on the 23rd of December 1954.

Its goal is to:

- ◆ Organize the radiesthesist,
- ◆ Obtain free exercise in all domains of an art which controlled results justify the public utility,
- ◆ Take the census of all serious, competent and honest radiesthesists, encourage, defend and help the qualified radiesthesist in his work,
- ◆ Inform on the possibilities and limitations of Radiesthesia as well as what one can await from this art.

By an extremely severe choice and permanent control of its members, with prudent leadership, supporting radiesthesia, by its public information service and scrupulous organization of the profession, the French National Radiesthesist Syndicate offers to the public a guarantee of loyalty and competence

By tis information service, the French National Radiesthesist Syndicate points out to the public the specialized and qualified radiesthesists open to counselling in the different radiesthesia branches such as:

- ◆ Mineralogy, hydrology, petrology,
- ◆ Archaeology Police research, missing people, treasures, divers objects, animals,
- ◆ Research of harmful waves,
- ◆ Agriculture,
- ◆ Health care, biology, dietetic, diets,
- ◆ Psychological research, professional orientations, characterology,
- ◆ Business,
- ◆ Etc..
